

## S@S (Services at Seneca)

After completing this assessment, you should be able to:

- Increase awareness of and use of college resources, supports and services
- Explore ways to become actively involved in the Seneca community

The S@S Assignment, which builds on what you learned during **Experience Seneca**, is intended to be an introduction to the people and services at Seneca. While working on your S@S assignment, you will find out information from various Seneca departments and resources on campus. We recommend collaborating and completing your assignment in small groups. However each student must hand in his/her own S@S.

This assignment is **worth 20%** of your final grade

### Instructions for completing this deliverable:

- Access the S@S Assignment review document. Attempt to answer all questions/statements on this document.
- A great way to find out this information is to attend as many Experience Seneca workshops and activities as you are able to.
- Keep the questions of the assignment in mind while attending sessions as many of the answers to the questions will be covered during each session

### Submission Guidelines:

- This is an individual assignment.
- Each student will have access to a S@S on-line test around week 3.
- Complete the on-line test, attempting to answer all questions.
- Once completed, your professor will need to manually mark a few questions; however, your test for the most part will be marked electronically after each question is attempted.
